

Beaded Jewellery Making Course

From Tuesday 9th February 10:00 – 12:00 | Zoom

Hope for African Communities UK, is running a project in Basildon and the surrounding areas, which starts at the beginning of February. The project seeks to fight loneliness and social isolation in Black Asian and Minority Ethnic (BAME) Communities.

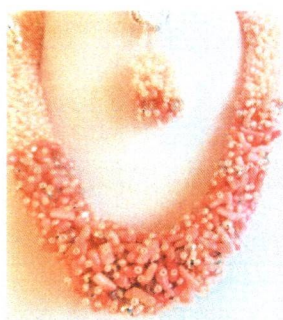

The project is open to all women, although we specifically encourage BAME women to join.

During the project, we will be doing a bead making which we hope will help lonely and isolated individuals build friendships and gain a skill at the same time.

We also hope that those who join the project will be in a position to start businesses at the end of the training.

The project is fully funded which means all materials are free for anyone joining us.

For more information or to join please call Mufaro Mapanda on 07939344727 or email mufaro.mapanda@hacinternational.org / info@hacinternational.org
